

## Temperature recorder with printer for semi-trailer

code: G0841

Complete solution for temperature record during the transport.

The device **includes Traceable calibration certificate** with declared metrological traceability of etalons is based on requirements of **EN ISO/IEC 17025 standard**.

- print-out of temperature record during transport of food, pharmaceuticals, flowers, live animals and other goods
- designed specifically for external installation on semi-trailers
- easy installation

## **Technical data**

-90 to +260 °C
±0.2 °C
0.1 °C
-30 to +65 °C
2x external temperature probe, 2x binary input
1MB (approx. 170 000 hodnot)
adjustable from 60 seconds to 60 minutes
each 10 s
cyclic - after filling memory oldest data is overwritten by new
year, leap year, month, day, hour, minute, second
9 to 32 V dc, protected against alternator load shedding + internal Lithium battery
approx. 8 W/approx. 0,1 W
IP65
250 x 242 x 110 mm
approx. 1650 g
3 years
