Humidity-temperature probe for p-line Web Sensor with cable length 5m

code: DSRH05+

Digital humidity-temperature probe for P8xxx Web Sensor with range 0 to 50°C. With CINCH connector.
The accuracy of COMET System digital probes only depends on the probe itself.
They can be calibrated independently from the device, making it easy to swap probes and avoid measurement problems during calibration.

Technical data

TEMPERATURE SENSOR	
Measuring range	0 to +50 °C
Accuracy	± 0,5 °C
RELATIVE HUMIDITY SENSOR	
Measuring range	10 to 90 %RH
Accuracy	3.5 %RH in range 10 to 90 %RH at 25 °C
GENERAL TECHNICAL DATA	
Filtrační schopnost krytky senzoru	0.025mm - filter with stainless steel mesh
Dimensions of the case	length 88mm; diameter 18 mm
Length of lead-in cable	5 meters
Connector	CINCH
IP protection	IP40
Warranty	3 years
