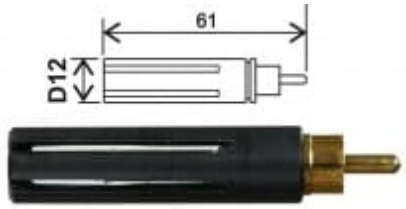
Ambient temperature probe, 200-80/C



code: SN177

Temperature probe with Pt1000 sensor. Fast accurate air probe -30 to +80°C for direct insertion to the connector of Commeter D0211,D0221,D0241. Tolerance t=±(0.10+0.0017*|t|) in accordance with EN 60751. Response time: t63 < 10s, t95 < 30s (air flow 1m/s). Probe is not resistant against moisture.
