Software for COMET Monitoring Systems

code: SWR003

Software for COMET Monitoring Systems series MS55D and MS6xx.

THIS PROGRAM IS MAIN COMPONENT FOR RUNNING COMET DATABASE **WITH COMET MONITORING SYSTEMS**

Technical data

DATA HANDLING	
Download record from the data logger	Yes
Open record from the file	Yes
Show data into the table	Yes
Data export to DBF	Yes
Data export to XLS	Yes
Print data from the table	Yes
Statistics	Yes
GENERAL FEATURES	
Events logging (Event viewer)	Yes
Languages in the program	Yes
GRAPHIC COMPONENT	
Graph	Yes - paid version
Graph export to PDF	Yes - paid version
Graph print	Yes - paid version
PROGRAM SETTINGS	
Autodownload	Yes - paid version
Record download with export to DBF	Yes - paid version
Folders and files settings	Yes - paid version
Program security (users and passwords)	Yes - paid version
ON-LINE MONITORING	
Display mode	Yes
Alarms in the display mode	Yes
Graph in the display mode	Yes - paid version
Data table in the display mode	Yes - paid version
DATALOGGER HANDLING	
Data logger configuration	Yes

Data logger memory erase	Yes
Alarm signalization confirmation	Yes
Read configuration from the file	Yes
COMET DATABASE	
Data export to the DLDB database	Yes - paid version
Data download with export to the DLDB database	Yes - paid version
Autodownload with export to the DLDB database	Yes - paid version
